Caribbean Loss Adjusters Expands, Appoints New Directors

Bahamas, August 14, 2019 — International loss adjusting firm Caribbean Loss Adjusters has expanded and appointed New directors with effect from 1st August 2019.

Operating out of the Bahamas and Panama, and providing a full spectrum of claims handling services throughout the Caribbean region, Caribbean Loss Adjusters has gained a reputation with local insurers and reinsurance markets alike of providing high-quality, tailored and results-focused services to its clients.

Experienced, Multi-language Directors

New directors Andrew Brown and Julian Worthington also join as Executive Director and London Market Director respectively from 1st August.

Speaking on the appointment, President Nick Dewar stated: “Both Andrew and Julian bring with them over 25 years’ experience each in international claims handling and we are delighted they have joined the company. Andrew provides Spanish speaking and technical claims handling capabilities to our offering in the Caribbean Spanish speaking territories in the region whilst Julian also brings French speaking expertise to those claims on French islands.

Services to Latin America

Additionally, Caribbean Loss Adjusters is now able to take advantage of the Propicsa network throughout Latin America and provide clients with coordinated and complimentary services to that region.”

Speaking on his appointment Andrew stated: “The CLA model for its resourcing of claims especially during severe Catastrophe events as experienced in the Caribbean following hurricanes Matthew in 2016 and Irma and Maria in 2017 shows that new proactive and

innovative approach has reaped rewards and has been fully embraced by clients. We are committed to continuing to increase our presence and operations in the region. CLA has recently signed partnerships with local firms in Dominican Republic and St Lucia and I look forward to advising on future developments and expansion in due course.”

Seamless Liaison for London Market Reinsurers in Important Caribbean Region

Equally Julian commented: “The Caribbean still represents a significant exposure to London market Reinsurers and with our presence in London we are able to provide seamless liaison to our clients in London and elsewhere, whilst equally being able to coordinate our resourcing requirements for large Cat events from our pool of pre-approved field adjusters.”

Focus on Information Systems

In addition to Andrew and Julian, Sherry Cooper joins as the fourth director responsible for Caribbean Loss Adjusters’ administrative and systems capabilities. CLA’s management information system which has already had very positive feedback from clients continues to be upgraded and improved to allow Insurers and Reinsurers real-time interaction on their claims.

Caribbean Loss Adjusters is prepared and ready to mobilise throughout the Caribbean for the current hurricane season.
